Application for New Renewed Membership

Few users realize the expense of setting up, maintaining, and periodically upgrading repeater systems. To better deal with these, the Pen Bay ARC (PBARC) and Lenfest Mountain Radio Group (LMRG) began sharing resources in June 2009. PBARC supplies Club services and supports the repeaters while LMRG provides technical support services.

To support the increased expenses of our expanded/upgraded repeater network, we have raised our dues for the first time in 22 years and created a CERT/ARES group within PBARC to support Emergency Communications. Thanks for your support!

Pen Bay Amateur Radio Club, Inc.

The mission of the PenBay ARC is to bond together Radio Amateurs in the Mid-Coast region in order to enhance their personal growth in Amateur Radio and in order to facilitate the growth of Amateur Radio in general. This mission will be accomplished by:

- 1) Providing Emergency Communications services to the general public as appropriate.
- 2) Encouraging fraternalism by a variety of meetings and other social activities.
- 3) Conducting classes for would-be Radio Amateurs.
- 4) Conducting FCC Examinations for those who wish to be licensed as Radio Amateurs and for those who wish to upgrade their licenses.
- 5) Publicizing Amateur Radio to the general public.
- 6) The maintenance and operation of a state-of-the-art repeater station.

Lenfest Mountain Radio Group

The mission of the Lenfest Mountain Radio Group is to support Amateur Radio on Washington's Lenfest Mountain Telecomm Facility. Maintaining a State-of-the-art facility helps us support many services ranging from Emergency Communications to supporting Amateur Radio's growth and advancement.
